

mimio[®] Interactive Bar

- Contains mimio's patented infrared and ultrasound sensor technology.
- Mounts quickly and easily to your existing whiteboard, vertically or horizontally.
- Can read an area up to 4 feet by 8 feet (1.2 m x 2.4 m).
- Works with a projector to control your computer directly from the whiteboard.
- Connects wirelessly or via USB to your computer.
- Provides five built-in function buttons to control interactive mode, tool palette, and screen markup and presentation effects.
- Folds for easy transport or storage.

mimio[®] Interactive Stylus

- Calibrates your whiteboard in seconds.
- Acts like a mouse, so you can manipulate anything on your computer screen right from the whiteboard.
- Works with software tools to mark up screens, draw objects, write notes, and more.
- Provides two programmable buttons, which allow you to click, right-click, drag and drop.
- Ensures smooth, gliding action via its solid Teflon[®] tip. Tip creates the left click when depressed against the surface.
- Resists cracking and impact damage.

mimio[®] Ink Capture kit:

- Enables digital capture of dry-erase marker ink from the whiteboard.
- Uses Expo™ dry-erase markers, inserted into mimio stylus pens.
- Allows handwritten notes and drawings to be saved, printed, shared electronically, and/or integrated into other digital materials.
- Saves content in color as PDFs, GIFs, HTML files, and more.

mimio[®] Wireless

- Provides wireless connection between the mimio Interactive system and your computer.
- Sets up quickly: Plug the wireless adapter into your computer's USB port, and replace the USB module on your mimio Interactive Xi Bar with the wireless module.
- Establishes an instant point-to-point connection, since the wireless module and the USB receiver are paired at the factory.
- Affords a range of up to 30 feet (10 m), with no line-of-sight requirement.
- Does not interfere with WiFi networks or wireless devices.
- Requires 4 AA batteries (rechargeable batteries may be used), or an AC adaptor (included).
- Works with Windows, Macintosh, and Linux operating systems.

mimio[®] Pad

- Serves as a wireless tablet that allows you to move up to 30 feet (10 m) from the master computer.
- Provides a generous 8 inch by 6 inch (20.3 cm x 15.2 cm) working area.
- Gives fingertip access to the most commonly used Studio 6 software functions and tools, via 16 onboard shortcut keys.
- Allows you to engage students individually, while maintaining command of the interactive lesson material.
- Allows students to participate from their seats; up to 50 mimio Pads can be connected to one system.
- Establishes an instant point-to-point connection, since the mimio Pad and the USB receiver are paired at the factory.
- Does not rely on line-of-sight, and will not interfere with an existing WiFi network or other wireless devices such as Bluetooth.
- Requires only a small mimio wireless receiver in your computer's USB port.
- Provides up to 16 hours of wireless operation; integrated battery is rechargeable via a USB cable

mimio[®] Mounting Brackets

- Secure mimio Interactive Xi Bar to whiteboard using 3M adhesive strips.
- Provide built-in Kensington Lock for security cable.
- Magnetic brackets also available for purchase.
